

SHOWA 874R Butyl II Gauntlets

BES0018 0.35mm, 350mm, 1 pair

The rough finish of the SHOWA 874R Butyl II Gauntlets offer enhanced grip and Acetone and Ketone (MEK) resistant chemical protection.

- Full Butyl composition with rough texture finish over entire surface for enhanced grip
- A thin, light glove with an anatomical shape provides a 'second skin' feel
- Protects the hand from a wide array of chemical hazards
- Designed for easy movement and continuous wear, this glove is impermeable for working in damp or greasy environments
- Wrist is well protected due to longer 350mm length and rolled cuff
- Available in two sizes, 09/L and 10/XL
- Typical industries and applications include Aerospace, Automotive, Chemical, Municipal services, and Steel & Metals
- Recommendations for use - Store away from light and humidity; Rinse the gloves in running water before removing, using a neutral detergent if necessary; Do not wear gloves when there is a risk of entanglement by moving parts of machines, Potential allergens: thiazoles and thiurames
- Specific Chemical Protection EN374-3:2003; B – Acetone, 5; I – Ethyl Acetate, 2; K – Caustic Soda, 6
