SKYTEC TX424 Single-Use Nitrile Gloves

GLVE003 0.1mm, PPE & Medical Grade, Fingertips

A high performance, powder-free, nitrile single-use examination glove. Significantly stronger alternative to latex, dual certified (Industrial and Medical) and food safe.

- A single-use, 100% nitrile disposable glove with a beaded cuff
- Powder-free, non-sterile and approved for food-handling; also Latex-free to avoid type I and type IV latex allergies
- Chlorinated inside to offer increased comfort and reduce friction when donning
- Textured finish on fingertips enhance grip and touch
- Dual labelled for PPE and Medical
- Gloves have an Acceptable Quality Level (AQL) of 1.5
- High resistance to penetration and projections of many chemicals
- Anti-static properties due to inherent anti-static properties of nitrile
- Medical device compliant (MDD 93/42/EEC), conforms to EN455 (all parts)
- Tested against chemotherapy drugs according to ASTM D6978-05
- Typical industries and applications include Aerospace, Chemical, Electronics, Food, Pharmaceutical, Manufacturing, and Oil & Gas for chemical handling, food handling, handling oily components, laboratory analysis, light assembly, paint spraying and examination
- Recommendations for use - Do not use in cases of heavy chemical exposure, electrical or thermal risk; Store away from light and humidity.
