

## Stat-Mat® Absorbent Roll

MATE460 Heavyweight, 51cm x 41m, 1 roll

The ONLY absorbent mat for fuels and solvents proven to dissipate static.

- The best mat you can buy to reduce the risk of electrostatic discharge; a critical precaution around flammable liquids and vapours
- Stat-Mat Pads and Rolls pass ANSI and MIL spec standards for static decay and surface resistivity, making them perfect for fueling areas and solvent cleanup
- Absorbs and retains oils and oil-based liquids - including acetone, benzene, petrol, toluene, xylene, mineral spirits and jet fuels - without taking in a drop of water
- Layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated
- Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup
- Highly absorbent, fine-fibre construction won't leave behind liquids or fibre residue
- Packaged in special static-dissipative bags to help reduce static charge buildup
- Floats to clean up spills on water
- Flame-resistant material won't burn immediately like untreated cellulose mats; melts when exposed to high heat whilst on the job
- Rolls are ideal for covering large areas and soaking up leaks and overspray
- Easy-tear perforations let you take only what you need, so you use less mat and save money
- Heavy-weight construction is highly durable and absorbent for demanding tasks and large-volume cleanups
