

# Stat-Mat® Absorbent Pads

MAT215 Lightweight, 38cm x 51cm, 200 pads

Clean up spilled fuels and solvents with the only pads proven to dissipate static.

- The best mat you can buy to reduce the risk of electrostatic discharge; a critical precaution around flammable liquids and vapours
- Stat-Mat Pads and Rolls pass ANSI and MIL spec standards for static decay and surface resistivity, making them perfect for fueling areas and solvent cleanup
- Absorbs and retains oils and oil-based liquids - including acetone, benzene, petrol, toluene, xylene, mineral spirits and jet fuels - without taking in a drop of water
- Layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated
- Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup
- Highly absorbent, fine-fibre construction won't leave behind liquids or fibre residue
- Packaged in special static-dissipative bags to help reduce static charge buildup
- Floats to clean up spills on water
- Flame-resistant material won't burn immediately like untreated cellulose mats; melts when exposed to high heat whilst on the job
- Pads are ideal for catching drips and soaking up spills
- Easy-tear perforations let you take only what you need, so you use less mat and save money
- Light-weight construction is economical for small tasks and cleanups

## Specifications

Colour	White
Dimensions	38cm W x 51cm L
Mat Weight	Lightweight
Fluids Absorbed	Oil-Based Liquids But Not Water
Absorbency	Up to 83.6 L per bag
Perforated	Perforated down centre Widthwise

<b>Sold as</b>	200 pads per bag
<b>Weight</b>	7.71 kg
<b># per Pallet</b>	30
<b>Composition</b>	100% Polypropylene
<b>Packaging</b>	Bag
<b>Poly-Backing</b>	No
<b>UV Resistant</b>	No

## Technical Information

### Certifications, Approvals and Ratings

ANSI/ESD STM11.11, MIL-STD-3010C
