

Tychem® C Standard Coverall

KAP0034 Type 3, Stitched & Over-Taped Seams, Zipper Front, Elastic Wrists & Ankles

Comfortable, lightweight protection against biohazards and inorganic chemicals.

- Tychem® C Coveralls feature a coated Tyvek® fabric and provide barrier protection against numerous concentrated inorganic chemicals and biological hazards
- Protective seams are stitched and over-taped with barrier-tape to provide barrier performance equal to that of the fabric
- Double self-adhesive zipper and chin flap offers high level of protection
- Designed to provide a comfortable fit, ease of movement and protection in most working environments
- Hooded coverall with elasticated face, wrists, waist and ankles for an optimal fit
- Thumb loops offer protection for overhead work when extreme arm movements are required; prevents the sleeve from riding up
- Antistatic properties; interior of garment is treated to help meet EN1149-1 requirements
- Tychem® C is used for splash or pressurised splash protection in a variety of industrial environments, including pulp and paper manufacturing, food processing, chemical processing and pharmaceutical manufacturing
