

Tychem® C2 Coverall

KAP0027 Type 3, Stitched & Over-Taped Seams, Zipper Front, Elastic Wrists & Ankles

Combining high mechanical strength and protection against a range of inorganic chemicals and biological hazards.

- Tychem® C2 Coveralls feature a coated Tyvek® fabric with higher mechanical strength to provide barrier protection against numerous concentrated inorganic chemicals and biological hazards
- Protective seams are stitched and over-taped with barrier-tape to provide barrier performance equal to that of the fabric
- Double zipper and double flaps permit limited re-use if not contaminated
- Designed to provide a comfortable fit, ease of movement and protection in most working environments
- Hooded coverall with elasticated face, wrists, waist and ankles for an optimal fit
- Double cuff system for good glove compatibility (recommended that cuffs are taped to gloves for a tight seal)
- Antistatic properties; interior of garment is treated to help meet EN1149-1 requirements
- Tychem® C2 is used for splash or pressurised splash protection in a variety of demanding industrial environments, including pulp and paper manufacturing, shutdowns, chemical processing and pharmaceutical manufacturing

Specifications

Style	Zipper Front, Elastic Wrists & Ankles
Colour	Yellow
Anti-Static	Yes
Seams	Stitched & Over-Taped
Storm Flap	Double
Sold as	1 each
Weight	0.2 kg
Composition	Tyvek® w/ Polymer Coating
