

Tychem® F Standard Coverall

KAP0033 Type 3, Stitched & Over-Taped Seams, Zipper Front, Elastic Wrists & Ankles

Trusted protection against a broad range of chemicals and biohazards.

- Tychem® F Coveralls feature a film laminated to Tyvek®, offer the broadest chemical barrier, helping protect personnel against numerous toxic industrial organic chemicals, highly concentrated inorganic chemicals and chemical warfare agents
- Protective seams are stitched and over-taped with barrier-tape to provide barrier performance equal to that of the fabric
- Double self-adhesive zipper and chin flap offers high level of protection
- Designed to provide a comfortable fit, ease of movement and protection in most working environments
- Hooded coverall with elasticated face, wrists, waist and ankles for an optimal fit
- Thumb loops offer protection for overhead work when extreme arm movements are required; prevents the sleeve from riding up
- Antistatic properties; interior of garment is treated to help meet EN1149-1 requirements
- Tychem® F is used a broad range of applications from chemical spill clean-up, emergency response, to military and petrochemical applications
