

Tychem® F2 Coverall

KAP0030 Type 3, Stitched & Over-Taped Seams, Zipper Front, Elastic Wrists & Ankles

Comprehensive Tychem® F protection combined with even higher mechanical strength.

- Tychem® F2 Coveralls feature a film laminated to Tyvek®, with higher mechanical strength, offer the broadest chemical barrier, helping protect personnel against numerous toxic industrial organic chemicals, highly concentrated inorganic chemicals and chemical warfare agents
- Protective seams are stitched and over-taped with barrier-tape to provide barrier performance equal to that of the fabric
- Double zipper and double flaps permit limited re-use if not contaminated
- Designed to provide a comfortable fit, ease of movement and protection in most working environments
- Hooded coverall with elasticated face, wrists, waist and ankles for an optimal fit
- Double cuff system for good glove compatibility (recommended that cuffs are taped to gloves for a tight seal)
- Antistatic properties; interior of garment is treated to help meet EN1149-1 requirements
- Tychem® F2 is used for splash or pressurised splash protection in a variety of demanding industrial environments, including pulp and paper manufacturing, shutdowns, chemical processing and pharmaceutical manufacturing; it can be used across a broad range of applications from chemical spill clean-up, emergency response, to military and petrochemical applications

Specifications

Style	Zipper Front, Elastic Wrists & Ankles
Colour	Grey
Anti-Static	Yes
Seams	Stitched & Over-Taped
Storm Flap	Double

Sold as	1 each
Weight	0.3 kg
Composition	Tyvek® w/ Polymer Coating
Attached	Hood
Type	3
