

Type II AccuFlow™ Safety Can

CAN520 3.8 L, 1 each

Full-featured, FM Approved safety cans have vented AccuFlow manifold, trigger handle and flexible hose for superior pour control.

- 100% leak-tested and fully FM Compliant construction
- Vented AccuFlow manifold and Safe-Squeeze trigger handle provide excellent pour control and smooth liquid flow
- Flexible hose allows pouring into small openings
- Durable, powder-coated steel resists fuels, solvents and lubricating fluids
- Rounded handle swings whilst you carry heavy loads
- Raised bottom lip adds puncture protection to underside of can and creates a secure handhold for pouring
- Spring-loaded, self-closing lid is airtight to help control vapours and prevent accidental spills
- Positive pressure relief cap automatically vents to guard against rupture and explosion
- Stainless steel flame arrestor and 9cm long mesh screen stops flashback ignition and provides faster liquid flow
- Reinforced sidewall ribs provide extra "bumper" protection against dents

Justrite
