

Tyvek® Classic Xpert Coverall

KAP0039 Type 5 & 6, Stitched Seams, Zipper Front, Elastic Wrists & Ankles

Tyvek® Classic Xpert sets a new standard of protection in the Type 5 and 6 category through greater protection and comfort.

- Offers superior protection against particulates and water-based chemical splashes thanks to a new patent pending, externally stitched seam technology
- Ergonomic design offers enhanced fit and full freedom of movement for optimal safety, minimising the exposed areas of the body in all working conditions
- Enhanced particulate protection compared to any coverall of its category - 6x more particulate protection than Tyvek® Classic, and 10x more particulate protection than other microporous films!
- Passes the new & more stringent type 6 norm against liquids (EN ISO 17491-4 Method A:2008, whole suit low-level spray test)
- Demonstrates significantly less leakage than conventional stitched seams even under the new and more aggressive type 4 test. (EN ISO 17491-4 Method B:2008, whole suit high-level spray test (2.5x more liquid than method A))
- Maintains good breathability thanks to air and moisture vapour permeability
- Improved 3-piece hood design perfectly fits the contours of the face even when wearing a mask
- Larger Tyvek® auto-lock zipper puller is easier to fasten and unfasten when wearing gloves, plus zipper flap for increased protection
- Sleeve design that won't ride up, so thumb loops are no longer needed! – perfect fit even when performing overhead work
- Glued-in (not stitched) waist elastic for protection and good fit
- Elasticated hood, cuffs & ankles for perfect fit (latex-free)
