

Universal Pillows

PILE700 20cm x 46cm, Absorbs up to 87 L per box, 20 pillows

Use Universal Pillows to absorb high-volume leaks and spills of oils, coolants, solvents or water.

- Pillows absorb high-volume leaks and spills of oils, coolants, solvents or water
- Pillows are easy to place in hard-to-reach areas — use under machines and leaky hydraulic hoses or wedge in corners cramped for space
- Pulls liquids from the floor like a sock, catches leaks like a pan, absorbs spills like a pad; versatile product that works for many different jobs
- Ideal for spill response; pillow's large surface area speeds the absorption process and shortens the overall response time
- Grey colour signifies Universal absorbency for easy visual identification
- 100% post-industrial recycled filler is environmentally conscious by utilising materials otherwise destined for disposal

Specifications

Colour	Grey sleeve, speckled filler
