

Wall End for PIG® Drive-Over Build-A-Berm® Barrier

PLR109 14cm x 8cm x 5cm, 2 each

Heavy-duty barrier springs back into shape when heavy vehicles pass. Custom containment berm helps you control liquids in high-traffic areas.

- The PIG Build-A-Berm Heavy-Duty Barrier provides semi-permanent containment in high-traffic areas on concrete, tarmac or most sealed surfaces
- Constructed of vinyl-coated fabric with an open-cell foam core; berm compresses to approximately 6mm when driven over; springs back to shape when vehicles pass
- Durable enough to withstand indoor or outdoor traffic from trucks, loaded tow motors and other heavy vehicles with sufficient ground clearance
- Secure to floor with sealant (sold separately) and reinforce with predrilled aluminium mounting strips (included) and steel anchors (included)
- Create any configuration by combining with other Build-A-Berm components; ends overlap and can be sealed together for liquid-proof containment
- When used with standard high-viz yellow Build-A-Berm Barriers, orange colour indicates area where drivers can enter and exit
- Sealed, 90-degree wall end sits flush against the floor and a wall, curb, etc. when used with sealant (sold separately)
- Helps you create professional containment areas without fabrication or using excessive caulk

Style	Drive-over
Colour	Orange
Dimensions	14cm W x 8cm L x 5cm H
Intended For	Use on Smooth Surface

Temperature Limit	-30°C (-22°F) to 71°C (160°F)
Sold as	2 per box
Weight	.9 kg
New Pig Patent	5,820,297
# per Pallet	220
Composition	40 oz. Vinyl-Coated Fabric with Open-Cell Polyurethane Foam Core Aluminium Fastening Strips Galvanised Steel Anchors
Includes	1 - BUILD-A-BERM® Barrier Wall End - Heavy-Duty 4 - Mounting Strips 8 - 2.5mm x 40mm Anchors
